

FROM THE PRINCIPAL'S DESK

Dear Students,

As I flip through these pages filled with your stories, art, poems, and achievements, I'm filled with pride—and honestly, a bit of awe—at how talented and creative all of you are. School isn't just about books and exams anymore. It's also about discovering who you are, finding your passion, and learning how to be kind, curious, and confident. Whether you love coding, dancing, drawing, gaming, sports, or writing your own stories—there's something here for everyone. And that's what makes our school so special: you bring it to life.

This magazine is a celebration of your energy, your ideas, and your voice. I hope it inspires you to keep dreaming big and doing what you love. Keep asking questions, keep exploring, and don't be afraid to fail—because that's how the best ideas are born.

Remember, the world needs your spark. So never stop shining.

Principal,

Sr. Xavier Mary fmm

HEADGIRL'S MESSAGE

- Holy Angels is a crucible in which intellect, character, diligence and social acumen are simultaneously refined. As the School Pupil Leader of the academic year 2024-2025 I, forever remain grateful to my Alma Mater, for they have invited the students to engage with a multitude of disciplines that cultivate both the mind and the spirit. The constant encouragement and motivation of my Principal, Teachers, Staff members and Council members have played an instrumental role in helping me perform my responsibilities in all the branches be it academics, sports, extra-curricular and cocurricular activities.
- Beyond the curriculum, HAS serves as a training ground for the transcendent principles that guides one throughout life. One learns that cooperation and collective efforts lead to enduring achievements. The interactions within a diverse student body have cultivated mutual respect and a recognition of the values of different perspectives and experiences. Our teachers have ignited a hunger not merely for answers but for "Understanding"- a trait that drives lifelong innovation and personal growth.
- As we come to the culmination of 14 years in this prestigious institution, let us remember that school is not the climax of intellectual endeavour but the catalyst. With all the insights acquired from school, let us all depart on a journey towards self-actualization, contribution and continuous discovery which would make the world a better place.

WARM WELCOME TO THE NEW STUDENTS !

- The New Admission Students were welcomed on the reopening day to make them feel supportive and friendly.

KG STUDENTS JOINS THE H.A.S FAMILY!

WARM
WELCOME!

Tomb of a fallen raven - T.Aphiya X-A

Through the smoke and dust
Lies my lonely heart
Black as tar and hard as a boulder.
As I venture out into the depths,
I see the boulevard of all lost hope
Tombs of dreams I dreamt as a child;
Struck by the bullets of this despotic reality.

They say raven always has bad luck and ill omen,
But they never concede it's intelligence and wits.
Perhaps they are jealous of its lush black feathers?
Or perhaps the black feathers hide it's true beauty?

Locked up in the chambers of my own horror,
Delving into the depths of my trepidations.
Sometimes I wish I was a seer,
To foresee the perplexing future that awaits.

Surety was never my forte,
And to relinquish is not my nature.
A spark flickers and set afire
A newfound courage and warmth,
That howled my name to go on.
And from the ashes I arise to complete my conquest.

What kind of person do I need to be?
What kind of person have I become?
Do I embrace being a raven?
Or do I strive to be a phoenix?

The Wish

Once upon a time, in a magical kingdom of Ethiopia, there lived a young girl named Jenna. She was known for her kindness and her deep connection with nature. Although the kingdom's name might seem fancy and problem-free, well, it wasn't. The citizens were extremely rude and couldn't live in peace and harmony. There were always misunderstandings, fights and arguments over silly reasons that took place almost everyday. Seeing all the disturbing things happening around her, Jenna wanted to do something so the citizens could finally live in peace and harmony.

One day, while wandering through the woods, she stumbled upon an ancient and enchanted tree. Its bark glowed with a soft, divine light, and its leaves seemed to be carved in pure gold. Curious Jenna placed her hand on its trunk. To her surprise, the tree spoke to her in a gentle yet wise voice "Jenna, you have a pure heart. I am the Tree of Wishes, and I can grant you one wish. But choose wisely, for this wish will change your life forever."

Jenna thought deeply. She had always dreamed of a world where everyone could live in harmony, free from pain and suffering. With a determined heart, she made her wish by saying, "I wish for a world where love and peace reign, where no one feels alone, unloved or misunderstood."

The tree's leaves shimmered, and a warm light spread all over the kingdom. Jenna felt an abundant energy and knew that her wish had been granted. As she returned to her village, she noticed a change. People were kinder, more loving, and compassionate. The air was filled with laughter and joy.

Years passed and Jenna grew older. She watched as her village flourished and transitioned from a city of fights and disasters to a city of peace and beacon of hope and love. One day, she returned to the Tree of Wishes. "Thank you", she whispered, "for granting me the greatest gift of all."

The tree's leaves rustled softly, and Jenna felt a sense of peace. She closed her eyes and took a deep breath, knowing that her wish had created a legacy of love that would endure for generations to come.

Grand Parents

Grand parents are our treasure ,
Their love is beyond measure ,
Though they have a lot of pressure
They tell stories with pleasure .

Our smile makes them cheer ,
They encourage us when we have fear
They can't bear to see us with tear ,
For they love us so dear .

We should thank god for the guiding stars
For their happiness is to see us as future stars .

Aatifah Sibghatulla

Life's Tapestry

Infinite threads of moments weave ,
A canvas vast , where stories leave ,
Each day a brush stroke , bold of fine ,
Painting the picture , Divine.

Life is a river , flowing free
Twists and turns , wild and carefree
Moments unfold , like petals of a rose
Each one unique , as the journey grows

With every step , a new colours born
In the art of living our spirits soar
In the beauty of life , our hearts find home
A work of art , forever to roam.

TIME

Tick - Tock -Tick - Tock

Time speaks loudly when it's at its slowest .

Time - like ocean waves break and shore.

It erases my every footprint as I

Move into the future

Leaving no traces back to the

Past where I took my first step.

And time plays tricks with us

In that time always wins.

Name : Lakshana

Class: 7 B

THE JOURNEY OF PHOTONS: A LESSON IN PATIENCE AND PERSISTENCE

In the vast expanse of the universe, even light itself must endure a journey of patience and persistence. Consider the photons emitted from the core of the sun, where they engage in a cosmic dance, bouncing off particles for up to 10,000 years before finally emerging at the surface. Yet, once liberated, they embark on an expedited voyage, reaching Earth in a mere 8 minutes.

This remarkable journey mirrors the human experience, particularly in our pursuit of success. Like photons in the sun, our first steps toward our goals may seem insignificant and our progress slow. We must endure challenges and setbacks, investing time and effort into our endeavours, much like photons navigating the sun's interior.

However, just as photons accelerate towards Earth once free from the sun's grasp, our perseverance eventually pays off. With dedication and resilience, our endeavours gain momentum, and success becomes within reach. This analogy reminds us that while the path to success may be long and arduous, patience and persistence are the guiding stars that illuminate our journey.

"SHAPING BRILLIANCE: THE PRESSURE OF EDUCATION"

In the crucible of education, students are subjected to pressures akin to those that forge diamonds. Teachers, often misunderstood as harsh taskmasters, apply pressure with a purpose – to sculpt raw potential into brilliance.

Just as diamonds develop under immense pressure and heat, students undergo rigorous challenges and expectations. While the weight of academic demands may seem overwhelming, it is crucial to understand that teachers act not out of arrogance but out of a deep-seated desire to nurture and guide.

Behind every stern instruction lies a commitment to unlock the latent talents within each student, moulding them into resilient, capable individuals. Like diamonds emerging from the depths of the earth, students emerge from the crucible of education polished and refined, ready to shine in the world beyond the classroom.

So, let us not perceive teachers as tyrants, but as craftsmen shaping the future with care and dedication. Their pressure is not a burden, but a catalyst for growth and transformation.

SACRED BONDS: "THE TAPESTRY OF TRUE FRIENDSHIP"

In friendship's embrace,

Jealousy finds no place,

Bound by trust,

In each other's grace.

Through storms and trials,

Side by side we stand,

Hand in hand,

United, hand in hand.

No tally of favours,

No score to keep,

Just hearts intertwined,

In solace deep.

With open arms,

We face the dawn anew,

A bond unbreakable,

Tried and true.

For in the purity of friendship's slate,

We find solace, love, and fate.
